Ringling's Circus is coming Sept. 30.

Read the big advertisement of "The Birth of a Nation" on page three.

The final installment of fair awards, in the poultry department, appears today.

Some of the best work for the Democratic ticket is being done by Judge Hughes.

Dr. S. L. Helm, first assistant physician at the Eastern State Hospital, was re-elected by the board of control.

Chas. M. Wyne has been indicted for murder at Henderson. He killed Dr. Miles C. Dunn Aug. 10, in a domestic scandal.

The Democratic campaign will be opened at Winchester today with speeches by Vice President Marshall and other notables.

The new silver half dollars have a strange look but four of them will be accepted for a year's subscription to the Kentuckian.

Pollard White, of Cadiz, has gone with Burke Culpepper as a singer in meetings at Oklahoma City and Hot Springs, Ark.

Ernest Jacobs and Edith Gilligan, each aged 26, secretly married in Louisville, May 26, 1915, have just announced their wedding.

George Bingham, who was proprietor of the Hogwallow Kentuckian, has started a semi-weekly newspaper at Mayfield, his home. It is named the Mayfield Times.

Congressman Kincheloe spoke on the tobacco embargo amendment Thursday and strongly urged the adoption by the House of the James amendment to the Revenue Bill.

Berlin claims to have taken the Rumanian town of Turtukal with 20,000 prisoners. Petrograd says the Rumanians being in danger of an enveloping movement evacuated the town.

The Senate ordered that the speeches made by President Wilson and Senator John Sharp Williams at Hodgenville at the acceptance of the Lincoln birthplace be printed in full in the Congressional Record.

After trying many judges, Gov. Stanley finally designated Circuit Judge A. N. Cisco, Grayson, to try the contest case of A. J. Kirk against Flem D. Sampson, for the republican nomination for judge of the court of appeals in the Seventh district. He will convene the contest court at Barbourville Friday.

S. E. McDonald, of Memphis, president of the National Association of Master Bakers, in an address at Chicago, urged the elimination of the five cent loaf on account of the increased cost of flour. Mr. McDonald promised a saving of \$25,000,000 a year to the fifty per cent. of the public now buying five cent loaves of bread if they would buy ten cent loaves instead but failed to explain who would lose the \$25,000,000 saved.

When debate was resumed Thursday in the Senate on the Owen corrupt practices bill, Senator Reed, Democrat, reviewed the eight hour railroad legislation in a long speech and referred to the utterances of Charles E. Hughes, the Republican presidential candidate on the Adamson bill. He put in the record Mr. Hughes' vetoes, as governor of New York of bills for two cent passenger fares, full train crews and an income tax. "In the light of these vetoes," said the senator, "I wonder how long it would have taken Mr. Hughes if he had been president to make up his mind to enact legislation that would have settled this strike question and how much more it would have cost the country if he had been president instead of Woodrow Wilson."

CONGRESS HAS QUIT

Both Houses Hold Protracted Night Sessions to Wind Up Last Affairs.

APPROVE REVENUE BILL

Corrupt Practices Bill Laid Over Until December-- Deficiency Bill Passed.

Washington, Sept. 8.—Congress adjourned this morning at 10 o'clock. After nine months devoted to legislation, both houses held protracted sessions last night to wind up their affairs by approving the conference agreement on the emergency bill to raise approximately \$200,000,000, desired by the administration to meet the extraordinary appropriations for national defense and the Mexican emergency.

The senate at 12:55 adopted the conference report on the revenue bill without a recorded vote, clearing the way for adjournment of congress this morning.

At 1:07 the senate recessed until 8 o'clock. The concurrent resolution for adjournment at 10 a. m., was left on the table for action when the senate resumed.

Only the physical impossibility of engrossing the revenue measure in time for the president's approval by this morning prevented final adjournment last night.

The executive offices were transferred today to Asbury Park, N. J.

BURKE AS A KNOCKER

Evidently Doesn't Feel Kindly Toward the Town That Made Much Over Him.

Rev. Burke Culpepper joined the Hughes Knocking Club at Cadiz and stung the bosom that warmed him less than a year ago. Here is the Record's account of what he said about Col. E. D. Jones, who put on a silk shirt and a gold watch and went to hear him preach, but "cut out" his "men only" sermon:

Friday night to an audience numbering near 2,000 people, the speaker got off a good joke on Bro. Jones. He said, "Bro. Jones wouldn't come to hear my sermon this afternoon to men only, thinking that I was going to get off that old sermon that he heard me preach to that Hopkinsville bunch. You down here at Cadiz don't need that sermon. There is as much difference between Cadiz and Hopkinsville as there is between heaven and hell. If you'd write a letter and direct it to hell and put a postage stamp on it, it would go straight to Hopkinsville."

And yet when Mr. Culpepper left Cadiz he "came straight to Hopkinsville."

Two Vacancies Reported In The Membership, To Be Filled.

The first fall meeting of the Athenaeum was held at Hotel Latham Thursday night and an interesting session was held.

Two vacancies were reported, one by the death of Judge J. T. Hanbery and the other by the resignation of Dr. H. P. Sights. A committee composed of W. T. Fowler, John Stites and Rev. C. M. Thompson was named to prepare resolutions on the death of Judge Hanbery. A resolution was passed providing for a more rigid enforcement of the rules concerning absentees, delinquents and those failing to prepare papers when on the program.

The only paper was read by Chas. M. Meacham on the subject of "Hair." A general discussion followed the paper.

Those present were President Frank Rives, H. W. Linton, A. H. Eckles, C. M. Thompson, J. W. Downer, W. T. Fowler, Chas. M. Meacham, Jas. A. McKenzie, T. C. Underwood, T. J. McReynolds, J. G. Gaither, F. M. Stites, John Stites, L. E. Foster, Geo. E. Gary, Ira L. Smith, Manning Brown, Pettus White.

HURT IN AUTO

Lawrenceburg Woman Suffers Severe Injuries in Jumping From Machine.

Lawrenceburg, Ky., Sept. 8.—Mrs. J. L. Bond, of this city, was seriously injured when an automobile in which she was riding became unmanageable and was steered into a ditch when the driver realized that to do otherwise would mean a plunge into the Kentucky river.

The party was composed of Mrs. J. L. Bond and Mr. and Mrs. Allie McGaughey.

Mr. McGaughey, realizing the danger, had barely time to divert its course, but not in time to prevent Mrs. Bond and Mrs. McGaughey from jumping. In doing so Mrs. Bond suffered a fractured skull, while Mrs. McGaughey was badly cut and bruised.

R. T. STOWE FOR MTYOR

Former County Court Clerk

Is Candidate In October Primary.

R. T. STOWE, SR.

In this issue of the Kentuckian appears the formal announcement of Robert T. Stowe, Sr., as a candidate for Mayor to fill the vacancy in the term expiring January 1, 1918. Mr. Stowe is one of the city's leading citizens and was elected County Court Clerk in 1909 by a majority of several hundred votes over his Republican opponent. He is the first Democrat to announce for Mayor. He is widely known not only in the city, but throughout the county. He will undoubtedly make a strong candidate and if nominated and elected he promises to give all of his time and attention to the office of Mayor and to look after the public's interests to the very best of his ability.

HISTORICAL SPECTACLE.

Confederacy's Daughters of the South and West have joined hands in enthusiastically praising "The Birth of a Nation," the much-discussed historical spectacle which comes to the Tabernacle, September 15 and 16, with a special Saturday matinee.

When the company which comes to Hopkinsville, played Norfolk last season Mrs. Frank Anthony Walker, president of the Hope-Maury Chapter, U. D. C., wrote the following letter to the Norfolk Ledger-Dispatch:

"The Birth of a Nation" is wonderful! Ku Klux Klan! What they suffered, lost and braved! This was a band of knights sent to make things work out as was desired, and none but these men could have accomplished it. There is much that makes one's heart ache; much that brings pleasure and happiness; tears and sunshine are well coupled. "The Birth of a Nation" is a revelation and history carried out."

In Los Angeles the members of the John H. Reagan chapter adopted this resolution and forwarded it to Mr. Griffith through their acting president, Isabella O. J. Davis:

"In endorsing the splendid production of "The Birth of a Nation" members of the John H. Reagan chapter, U. D. C., feel a great privilege. The wrongs of history righted, the presentation of that side of the question never known to Northerners and the wonderful spectacle itself, is an educational and artistic treat to the entire union."

Decline In Beef.

A Cadiz butcher announces a reduction in beef. The best steak is 20 cents and roasts from 15 cents down to 10 cents. This sounds like old times and is likely to start a wholesale immigration to Cadiz.

SHELLING IS FURIOUS

French Artillery Fire So Violent Teutons Not Able to Start Counter Attack.

INFANTRY IS INACTIVE

Halicz in Flames as Russians Pursue Determined Quest For Galician Capital.

London, Sept. 8.—The infantry of the belligerents in the Somme region of France was inactive Thursday, except south of the river where the French, to the east of Denicourt captured elements of trenches from the Germans and brought forward their front more in alignment with their newly acquired line running by Belloy-en-Santerre and Berny-en-Santerre.

The day, however, was a continuation of the violent bombardments which always precede attempts at fresh advances by the entente allies. In addition, great aerial activity was shown by French and British aerial squadrons in bombarding points of vantage behind the German lines.

South of the Somme so violent was the French artillery fire that under it the Germans were unable to make their customary counter-attacks, according to Paris.

SHELLING HEAVY AT VERDUN.

The Germans are heavily shelling the French in the old first line German trenches a mile in length between the Vaux-Chapitre region and the town of Chenois, in the Verdun sector, which was taken by the French Wednesday night.

HALICZ IN FLAMES.

In Galicia the Russians are still actively in quest of Lemberg, keeping up their pressure against the Austro-Germans westward from the regions of Brzezany and Halicz. Near Brzezany the Russians have driven back the Teutons from fortified positions and advanced to the Naraiuvka river, a tributary of the Gnila Lipa and at some points have crossed the stream. Near Halicz the railway line has been cut by the Russians who now are heavily bombarding Halicz which, although in flames, the forces of the central powers are still stubbornly defending.

In Wednesday's fighting in the Halicz sector, 5,645 officers and men of the Teutonic allies were made prisoners. Both Berlin and Vienna admit retreats between the Zlota Lipa and Dniester rivers.

Likewise, Vienna concedes a retreat of the Austrian forces before the Rumanians near Olap Toplitza in eastern Transylvania, twenty miles from the Rumanian border. The retreat was made in the face of a threatened enveloping movement.

New High Record.

Hogs sold at \$11.65 a hundredweight at the Louisville Bourbon Stockyards Wednesday. This is the highest price in the history of the local market, being 55 cents above the best previous record which was established in 1910.

Sues For Divorce.

Mrs. Emma L. Reeves has filed suit for divorce from S. A. Reeves. She alleges cruel and inhuman treatment and adultery. Plaintiff states that they were married in Todd county in 1906, and lived together until Oct. 9, 1914, when they separated. In addition to a divorce, plaintiff asks \$500 as alimony.

Death of Epileptic.

J. W. Proctor, of Union county, died at the Western State Hospital Wednesday night. He was an epileptic patient and was 30 years old. Several years ago he and Arthur Miles escaped from the institution together. Proctor was captured a few days later as he was making his way back home, and was returned to the hospital. Miles is still at large.

 child to school between the ages of 7
 and 12 years. The fine is \$5 to \$20 for

Bank problems ranging from taxa-
 tion to police protection are embrac-
 ed in the program for the twenty-
 fourth annual convention of the Ken-
 tucky Bankers' Association, to be held
 October 10 and 11 in Paducah. An
 address of welcome will be delivered
 by Charles K. Wheeler and the re-
 sponse will be made by John G.
 Winn, president of the Montgomery
 National Bank of Mt. Sterling.

The forty-eighth annual convention
 of the National American Woman
 Suffrage Association is in session at
 Atlantic City, with representative wom-
 en from all sections of the country
 in attendance. One of the most im-
 portant questions before the conven-
 tion, whether to concentrate on Fed-
 eral or State campaigns to continue to
 work for both, will be decided when
 amendments to the constitution will
 be voted upon the following a three-
 cornered debate, in which the merits
 of each plan will be argued by prom-
 inent speakers.

Although he had made no applica-
 tion, filed no credentials and was
 represented by no spokesman, Prof.
 T. J. Coates, State Supervisor of
 Rural Schools, was elected president
 of the Eastern Kentucky State Normal
 School at Richmond over thirty com-
 petitors by a unanimous vote of the
 Board of Regents of State Normal
 Schools, all of whom were in attend-
 ance. Mr. Coates will succeed Prof.
 Crabb, who resigned to accept a po-
 sition to accept a position in a West-
 ern college.

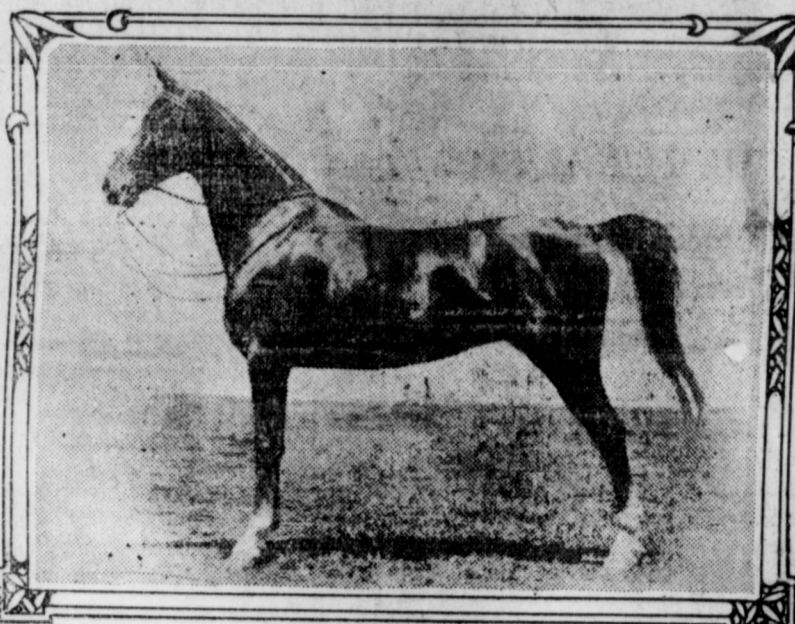

The City Council of Eminence
 elected Councilman George W.
 Young Mayor to fill the vacancy
 caused by the death of Mayor S. W.
 Booker. Mr. Young at once resigned
 as Councilman and assumed the du-
 ties as Mayor, pledging his best ef-
 forts for a clean, progressive busi-
 ness administration. Before the
 present term Mr. Young served eight
 years as Mayor and a number of
 years as Councilman. He is one of
 the city's most popular officials. J.
 H. Wilson was elected Councilman to
 fill the vacancy caused by the elec-
 tion of Mr. Young as Mayor.

MIDWAY WILL BE A BLAZE
OF GLORY AT STATE FAIR

"The new broom sweeps clean," say
 the wisecracks and living up to this
 adage the new Kentucky State Fair
 Secretary, W. J. Gooch, has "swept the
 country" for attractions, exhibits and
 features for this Fair which will
 make it epochal in the history of
 like celebrations and in securing
 the Great Dominion Shows as the
 Midway feature he feels that he has
 secured the one great Midway organiza-
 tion of its kind in our. There are
 twenty individual entertainments fly-
 ing the Great Dominion banners and
 thirty cars are required to transport
 the outfits. The supreme feature
 of the Midway lineup this season is
 reputed to be the Submarine exhibi-
 tion in which the real, practical workings
 of this latter-day marvel of ocean na-
 vigation is shown. In view of the poi-
 gnant interest in sea-going or under-sea-
 going vessels, the Submarine exhibi-

tion is particularly timely and this
 particular division of the Midway is
 sure to be overwhelmed with visitors.
 Circus, vaudeville, spectacle and all
 combined in the grand Hippodrome
 Show which will precede the horse
 events each night at the Fourteenth
 Annual Kentucky State Fair, to be
 held September 11-16. This at-
 traction is one of the most popular
 features of the entire Fair and never
 fails to draw crowds which fill the
 giant circle of the beautiful State Fair
 pavilion. The line-up offers an enter-
 tainment which in the East would be
 rated as a \$2 show, but which will be
 offered here at the remarkably trivial
 price of 25c.

In addition to the vaudeville line-up
 one of the delights of the Hippodrome
 program will be Natiello's Royal
 Hussar Band of 40 skilled musicians.
 The Hippodrome shows will be
 given nightly at 7:15 o'clock in the
 big pavilion of the State Fair grounds.

KENTUCKY'S STATE FAIR HORSE SHOW
FAMED AS GREATEST EQUINE EXHIBIT

The Kentucky State Fair Horse
 Show is universally conceded to be
 the country's greatest equine exhibi-
 tion, and the chief attraction of the
 show is the Championship Five-Gaited
 Saddle Stake, heretofore known as the
 Commissioner of Agriculture Stake, an
 event which has been frequently and
 not inaptly styled "The Saddle Horse
 Derby of America." Next to its im-
 portance are the Championship Har-
 ness Stake and the Championship
 Roadster Stake, each valued at \$1,000,
 and for the 14th Annual Kentucky
 State Fair, to be held in Louisville
 the week of September 11-16, contain-
 ing the entries of some of the most
 valuable harness and roadster horses
 in the country. As a spectacular
 event, not even the greatest contest
 at the Madison Square Garden Show
 can compare with any one of these
 three events. There are six additional
 stakes offered for saddle horses.
 The Horse Show will be held day

and night in the Live Stock Pavilion.
 From 11 o'clock in the forenoon until
 nearly 11 o'clock at night, there will
 be continuous performance of Horse
 Show rings. Breeding classes for
 American Saddle Horses, Standard
 Bred Horses, and Shetland Ponies are
 well cared for in the classification.

There will, also, be classes for best
 bay rider, best lady rider, and best
 ladies' turnout. A new class is, also,
 provided for three-gaited horses, suit-
 able for jumpers. The entries in this
 class are not required to jump, how-
 ever, but to perform creditably three
 gaits, walk trot and gallop.

The eleven stars who will be the
 probable contenders in the big Saddle
 Horse Event, will be Queen Rosa,
 Grand McDonald, Richelleu King, Fair
 Maiden, Diantha, Dare Devil, Easter
 Cloud, Maydan, Kentucky's Queen,
 Johnny Jones and St. Cecelia. This
 ring will be featured for Friday night's
 show, September 15. Entries close
 Monday, September 4.

SPECIAL HORTICUL-
TURAL PRIZES

Nearly \$700 is offered in prizes for
 Horticultural exhibits at the Kentucky

 of fruit, there will be many appliances
 in the way of spraying machines and
 other inventions useful in the orchard.

Much Wasted Money.

The economic importance of paleon-
 tology has been repeatedly shown in
 this country. In the earlier exploita-
 tion of anthracite coal thousands of
 dollars were fruitlessly expended in
 New York in search of coal beds until
 the New York geologists showed that
 the beds in that state could contain
 no coal. The fossils in the New York
 rocks exploited are of Devonian age,
 whereas the fossils of the Pennsyl-
 vanian anthracite coal beds belong to
 the Carboniferous, a much later pe-
 riod. This discovery at once stopped a
 useless expenditure of money.

Part Sentiment Plays.

A dollar is often a weakling com-
 pared to the right word or merely a
 handshake. Just as long as the per-
 sonal element enters into business
 transactions, just that long will sen-
 timent play its part as a business pro-
 ducer. To be sure, quality must be
 in evidence—plenty of it—but back
 of this is the feeling that prompts you,
 and all the rest of us, to frequently
 say "I like to trade at Blank's they
 treat you right in that place." That's
 loyalty—and sentiment is the force
 back of it.—The Goodrich.

OF INTEREST TO EVERY FARMER.

We have just purchased a new BUCK HORN MACHINE of the very latest type.

This machine will be here in a few days and we will then be in position to clean your seed of buck horn and other foreign matter, better and with less waste of seed than can be done with any other machine in town.

Before making arrangements for having your seed cleaned, be certain to give FORBES a chance at the business. IT WILL PAY YOU TO DO THIS.

We will save you money, there is no doubt about that. We will also save your seed, there is no doubt about that. Your seed will be worth much more money and will bring more dollars on the market if they are properly cleaned.

This is undoubtedly the greatest machine of its kind on the market today. We are pleased with it and know that you will be when you have seen it.

DON'T HAVE YOUR SEED CLEANED
until you have seen us and talked the matter over.

Fruit Not Injured by Bees.

An agricultural society of Florence, Italy, carried out a thorough investigation of the alleged injury of fruit by bees, and has completely exonerated the latter. Bees are unable to perforate the skin of fruit, and it is only incidentally that they suck the juices of fruits injured by other natural causes. The damage sometimes attributed to these insects is due to poultry, wild birds, wind and hail, and even more frequently to hornets, wasps, vine moths and other insects. Instead of being harmful to orchards and vineyards, bees perform the useful service of effecting the cross-pollination of flowers and hence the setting of fruit, as well as the destruction of damaged fruits (especially grapes) by sucking the juice and pulp and thus preventing fermentation and rot extending to sound individuals. The orchards and vineyards frequented by bees give the most constant crops.—Scientific American.

ELDERLY WOMEN SAFEGUARDED

Tell Others How They Were
Carried Safely Through
Change of Life.

Durand, Wis.—"I am the mother of fourteen children and I owe my life to Lydia E. Pinkham's Vegetable Compound. When I was 45 and had the Change of Life, a friend recommended it and it gave me such relief from my bad feelings that I took several bottles. I am now well and healthy and recommend your Compound to other ladies."

—Mrs. MARY RIDGWAY, Durand, Wis.
A Massachusetts Woman Writes: Blackstone, Mass.—"My troubles were from my age, and I felt awfully sick for three years. I had hot flashes often and frequently suffered from pains. I took Lydia E. Pinkham's Vegetable Compound and now am well."

—Mrs. PIERRE COUNOYER, Box 239, Blackstone, Mass.
Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness, should be heeded by middle-aged women. Lydia E. Pinkham's Vegetable Compound has carried many women safely through this crisis.

Champion Coon Dogs.
Clayton Moore, of Kentontown pike, has the champion coon dogs of this or any other state. Clayton has, with the assistance of these dogs, caught seventy-nine o'possums, eight skunks, six coons, besides other varmints and an endless number of rabbits. This breaks the record of one season's hunting of coon dogs, and we doubt if any other county in the state can make anything like a similar showing in the coon dog line.—Mt. Olivet Tribune-Democrat.

Billingsgate.

Billingsgate is noted for more than its picturesque language, for it is the world's greatest middleman's fish market. London devours over one and a half million pounds of fish every day in normal times—a quarter of a million tons a year that means. Eleven railroads bring about 550 tons a day and the remainder comes by water. Before being offered for sale, the fish at Billingsgate are inspected by a commission of the Worshipful Company of Fishmongers, which holds letters patent granted it by King Edward I at the beginning of the thirteenth century. The ancient society represents, through the North Sea Protective association, more than 50 of the leading fishing companies of the United Kingdom.

DAY-DREAMS BY ED WHITE

"A Life Saver"

A man was heard to remark a few days ago, "Why, my house hasn't been painted for Oh I don't know How Long." Geo. Collins, head of the house painting department of Forbes Manufacturing Co., promptly remarked, "We painted that fellows house and it was a long time ago, but it still looks all right."

Such remarks are common among those people who employ Forbes as their House Doctor. They are wise to the fact that cheap paint is the most costly in the long run. We use nothing but the best paints on the market and we don't skim over your job trying to get through and onto another piece of work. Our men are instructed to do it thoroughly and we keep a competent foreman on the job at all times to see that this instruction is carried out to the letter.

We shall take pleasure in sending right out to your house and making you an estimate on a first-class job of work, guaranteeing to use nothing but the highest grade of materials and employing only skilled labor.

All we can ask is an opportunity to figure with you on that job. We will do it as reasonably as we possibly can.

But, in case we don't get the contract, you be certain to specify in your contract that either Mastic Paints or Sherwin-Williams paints are to be used and you will be assured of high grade materials. We sell only pure linseed oil and lead. The best always. We don't care to take up space and help you to throw your money to the winds by handling and selling you inferior paint materials.

Mrs. Powell Almost Dead.

Dry Ridge, Ky.—"I could hardly walk across the room," says Mrs. Lodia Powell, of Dr. Kidge, "before I tried Cardui. I was so poorly, I was almost dead. Now I can walk four miles and do my work with much more ease. I praise Cardui for my wonderful cure." Cardui is successful in benefiting sick women, because it is composed of ingredients, that act specifically on the womanly constitution, relieving headache, backache, irregularity, misery and distress. Only a good medicine could show such continual increase in popularity as Cardui has, for the past 50 years. Try Cardui, the woman's tonic.—Advertisement.

Footman Was a Poet.

At least one domestic servant—though a male and not a female one—made a lasting contribution to English literature in the eighteenth century. This was Robert Dodsley, who as a young man served as a footman, and brought out his first works, "Servitude: a Poem," and "The Muse in Livery, or the Footman's Miscellany," while still in service. With the proceeds of these works and a farce, "The Toyshop," produced at Covent Garden, he set up as a bookseller in Pall Mall, and within a few years became the most prominent of London publishers, issuing books for Pope, Johnson and Goldsmith, inaugurating the "Annual Register," and still trifling with the muse himself, besides collecting and editing an invaluable selection of "Old Plays."—London Chronicle.

Habit of Being Happy.

Keeping oneself reasonably happy is a duty that ought not to be shirked. Science is telling us these days that to get out of the habit of enjoyment is to get depressed in vitality and vigor, to weaken in efficiency, and grow old before one's time. There is nothing like laughter—not empty-headed laughter, but the intelligent, wholesome, kindly-hearted kind—to keep people young and fresh and fit for business and the obligation of living. Of course, this is a prescription not easy to live up to always, but there is no reasonable excuse for not trying to do it. Sometimes it is just about as easy to be happy as to be miserable if one makes up his mind to it, and there is no doubt at all as to which pays the best.—Onward.

NOW LAND OF GRAVEYARDS

Awful Record of Death Grapple in War Operations in Galicia Last Year.

Under the caption "More Than 700 Graveyards," the Berliner Vorwaerts recently published an article referring to the battlefields of Galicia and to the efforts being made by the Austrian authorities to bring some sort of order into the chaotic conditions prevailing in the military burying grounds scattered over the province, says the London Chronicle.

The writer estimates that between the town of Gorlice and the heights of Tarnovo no fewer than 419 graveyards have been cleared of their unsightly surroundings, and says that wherever possible natural beauties in the landscape have been utilized to lend dignity to the enormous cemeteries.

All along the Dunajec graveyards are thickly strewn over the entire countryside. Russians, Austrians, Germans, Hungarians to the number of 40,000 are buried in the care-for graveyards, a number which does not include those buried in masses in one grave. In West Galicia alone about 600 graveyards exist and in other parts more than 100. From the Dunajec eastward the multitudinous graves of the Russians are seen stretching away into the eastern plains, an awful record of the death grapple of last year.

NEW IDEA IN PIPE SMOKING

Something for Those Who Are Fond of the Weed to Give Their Consideration.

William H. Fulton of New York city describes in a patent the defects in the ordinary tobacco-smoking pipe resulting from the distillation of the moisture on account of the air being drawn down through the unburnt portion of the tobacco, and claims this can be avoided by igniting the tobacco initially at the bottom of the bowl. To do this he provides at the base of the pipe bowl an electric conductor which is energized by a plug connected up to an electric lamp socket so that as the pipe is being lighted the lamp filament will glow to indicate when the tobacco-igniting conductor is operating.

TWENTIETH CENTURY COYNNESS.

"There is a very excellent reason why a girl shouldn't smoke." "What?" she demanded. "Makes her less agreeable to kiss." "Well, I'll wait till somebody wants to kiss me," she said; "when they do, I'll give up cigarettes—and take to a pipe!"—Woman's Home Companion.

NATURAL INDIGNATION.

Miss Pansy Pyetin is again refusing to speak to her father. She asked him what he thought of her short skirt and high-top shoes. He said he thought she'd look more properly dressed if she'd put on her long nightgown over the entire outfit.

PROVIDING THE PROVERB.

Old Lady's Sage Advice.

Knoxville, Tenn.—Mrs. Mamie Towe, of 102 W. Main Street, this city, says: "If you had seen me, before I began to take Cardui, you would not think I was the same person. Six doctors failed to do me good, and my friends thought I would die. I could hardly get out of bed or walk a step. At last an old lady advised me to take Cardui, and now I can go most anywhere." All ailing women need Cardui, as a gentle, refreshing tonic, especially adapted to their peculiar ailments. It is a reliable, vegetable remedy, successfully used for over 50 years. You ought to try it.—Advertisement.

Oases in the Cities.

The offices, factories and tenements fill in their ranks and stand shoulder to shoulder in their endless drill of goose-stepping economic efficiency. And yet, if we stop to think what makes a city worth living in, it is perfectly sure that a wiser generation than ours must open oases in our architectural deserts, must multiply our flowing waters, purify them, widen the banks and set them with parks. In these things are the welfare assets of a city; while offices, docks, factories, terminals, etc., are mechanical devices for enabling more people to win leisure and enjoy them.—Collier's Weekly.

MESA VERDE.

In southwestern Colorado the large tract of land now known as the Mesa Verde National park was set aside from the Ute reservation by an act of congress in 1906 on account of the numerous ruins of cliff dwellings which occur in its canyons. This enlightened legislation was in response to the universal recognition that these remains had an educational importance.

Prominent Factors in The Busy Life of the Pearl City.

BIOGRAPHICAL SKETCH NO. 112.

Is Popular As Postmaster and Famous As "Stanley's Mule."

J. E. MOSELEY.

Here we have the Honorable Joseph E. Moseley, Postmaster of Hopkinsville, and one of the successful politicians of Western Kentucky.

Mr. Moseley was born near Fairview, Ky., Dec. 1, 1871. It was a cold day when he was born, but it is a still colder day when he gets left. He remained on the farm until it became a sort of "pent up Utica," too small for his ambitions. Then he struck out into the wide world to climb the ladder of success and is still climbing.

His education was acquired at Belknap College, Russellville, and in 1893 he was married to Miss Nonnie Downer and settled on a fine farm on the Fairview pike. He engaged in farming until 1896, when he went into the live stock business and became a justice of the peace and later county road engineer. While living in Hopkinsville he became an active leader of the Democratic party and his influence was much sought after, first by local candidates and later by those aspiring to State offices.

From 1912 to 1915, Mr. Moseley was Chairman of the Democratic County Committee and was always a prominent figure in State conventions. He became a close personal friend of Congressman A. O. Stanley and was his right hand man in several of his races for Congress and was one of his board of advisers in his campaign for the Senate in 1913. So loyal was he in his devotion to him and so greatly did Mr. Stanley look to him for the performance of difficult duties that he was referred to as "Stanley's Mule." He accepted the sobriquet and never kicked, balked or ran away until he helped him realize his next ambition to be Governor.

Just before his term as Congressman expired, Mr. Stanley secured the appointment of Mr. Moseley as postmaster, although the term of his Republican predecessor had not yet expired. It took some hard work to do this, but he put it through in time for Mr. Moseley to be the first postmaster to occupy the five new government buildings erected at a cost of \$100,000, through Congressman Stanley's indefatigable efforts covering a period of years.

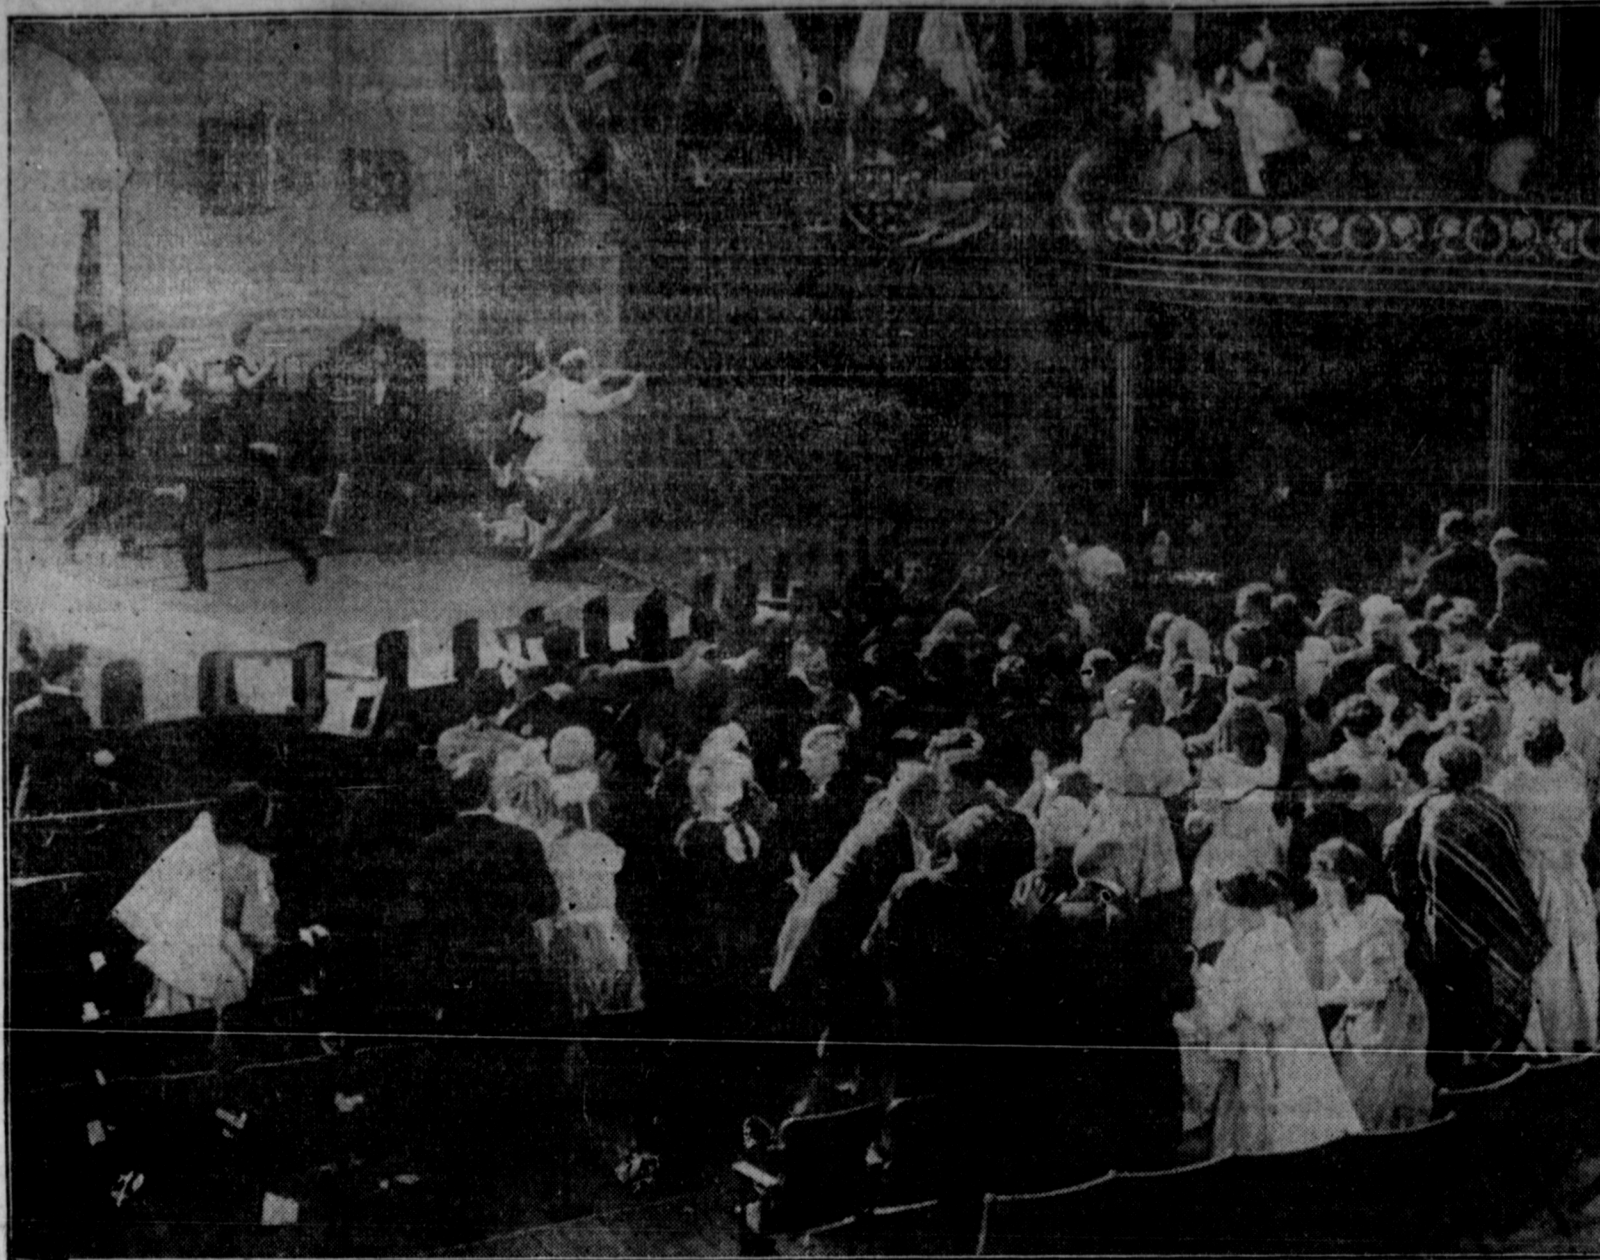

Soon after he went in his salary was increased \$100 and there we find him just well into a four years' term at \$2,800 a year. In the meantime, fortune has smiled upon Mr. Moseley in other ways and he is now amply able to keep the wolf from his door. He is enjoying life in every way except that it is a little hard for him to settle down on a non-partisan basis and not take an interest in what is going on in politics.

The official position calls for the close attention of the postmaster who has eight rural carriers, six city carriers and nine other employees under his direction. The quarterly business now runs to \$8,000 and the office is in need of still more clerical assistance. The inspector is now looking into this need and Mr. Moseley hopes to have his force considerably increased by the end of the year.

Mr. Moseley's family consists of his wife, five boys and three girls. Two of his sons have graduated from the city High Schools. One captured the medal for oratory and the other excels in athletics. He continues to patronize several grades in the city

THE ASSASSINATION OF ABRAHAM LINCOLN

The Firing of the fatal Shot by John Wilkes Booth is strikingly shown in "The Birth of a Nation," which comes to the Tabernacle Friday and Saturday, Sept. 15 and 16, with symphony orchestra of 25.

A kind of artistic achievement easy for the film, but impossible for the "indoor drama" is illustrated by the Ford's Theatre scene in "The Birth of a Nation."

The old-fashioned drama has long attempted to represent a stage within a stage, and some of such representations have been rather realistic. But in the film scene showing the assassination of President Lincoln, one sees

not only the complete stage of Ford's Theatre in April 1865 but also the audience and the historical figures in the boxes.

Laura Keene is playing "Our American Cousin," assisted by E. A. Sothern in the role of Lord Dunderbary. They are startled out of their mimic parts by the shot that Wilkes Booth fired. The audience

has arisen to its feet as the shot is heard and cranes forward in a semi-panic to gaze at the great statesman whose head has fallen back in the stage box and at the assassin Booth who is leaping from the box to the stage and whose spur catches in the box draperies as he jumps, causing him to break his leg. This sort of historical realism has never been

achieved before. It is part of what is meant by the so-called "new art" for which D. W. Griffith is responsible.

Spectators gaze at the scene with fascinated horror. It is too terrible, too awesome for applause, yet not a spectator but feels that in this impressive rendition Mr. Griffith has surpassed the greatest previous art achievements of the film drama.

SUN BROS. SEPTEMBER 21

Contract Made Yesterday and Show Will be Here on Above Date.

Sun Bros. Circus will exhibit here September 21. The show on yesterday closed a contract to appear here and will be in the city on that date, giving two performances, afternoon and night.

Not content with giving the American public one of the best all around performances each season, the Sun Brothers' Shows have recently added to their already fine show, a complete trained wild animal tourney. This comprises a score of amazing dumb actors of all kinds, including elephants, lions, tigers, kangaroos, baboons, leopards, camels, dromedaries, sea lions, etc. No woman, man or child can afford to miss this wonderful display of animal subjugation. These animals are wonderfully trained and the power of kindness was never more surely or splendidly illustrated.

The much advertised free exhibitions will be offered for review on the show grounds at 12:30 p. m.

FOR SALE—A "Globe" range and gas stove—good condition, cheap. Address "W," Kentuckian.

Mr. Moseley is still a close friend of Governor Stanley and is ready to support him for Senator again, or for President if his ambition leads him in that direction.

RESOLUTIONS

Resolutions adopted by Carrie Hart Chapter, No. 83, O. E. S., Hopkinsville, Ky., Sept. 5, 1916, on the death of Brother John Thomas Hanbery, which occurred August 6th, 1916.

Whereas, The Supreme Architect of the Universe, by His immutable decree from which no mortal escapes, has called from among us Judge John Thomas Hanbery, who was a man, a just and a Mason among men and Masons. He did the duty lying nearest, even though it humble be, and in its doing he blessed and enlightened his fellowmen.

Resolved, Therefore, That in Fraternal remembrance, respect and appreciation of him as a worthy brother, these Resolutions be laid up in the Archives of our Chapter sacred to his work, worth and memory, that a copy be sent to his worthy and much loved wife and copies be furnished the city press for publication.
